

QUOTE CAD

The option

Computer Aided Quotation

QuoteCAD is the smart choice for businesses that need to quote or make commercial proposals of their products and projects in computer aided design.

Running exclusively on CAD platforms based on IntelliCAD, is designed to make the process of designing and quotation fast, efficient and smart.

Key Points

CAD Compatibility

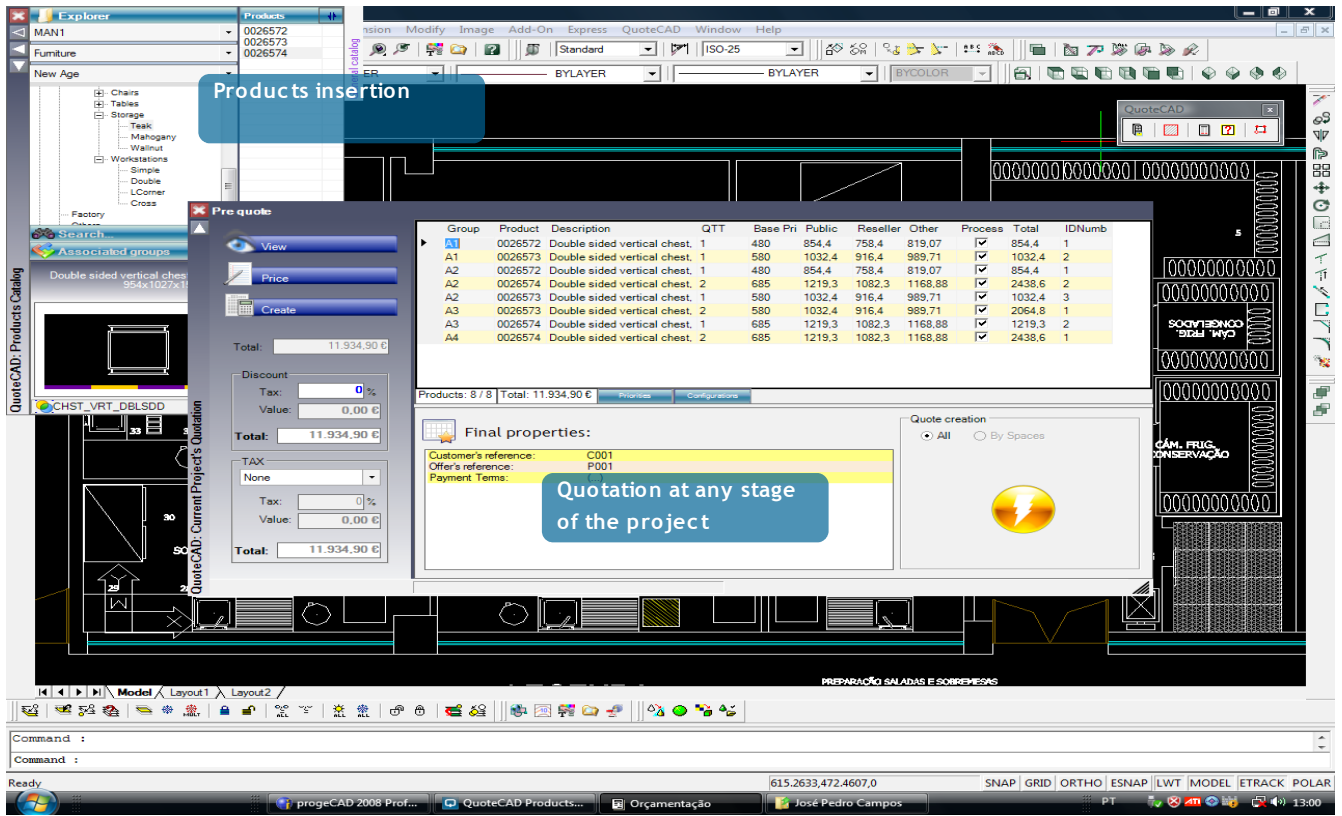

- Products representation by blocks or codes
- 2D and 3D Blocks (DWG format)
- Catalog with products preview

Productivity

- Organization of products by manufacturers and lines
- Customisable products explorer
- Several types of insertion of products
- Product assemblies
- Quotation at any stage of the project
- Menu and Toolbar
- Supported in Windows 2000 / XP / VISTA™

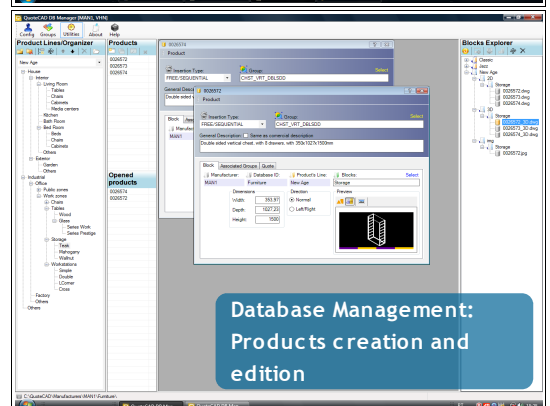

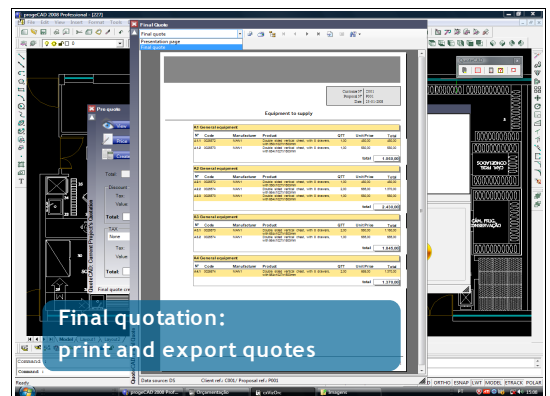

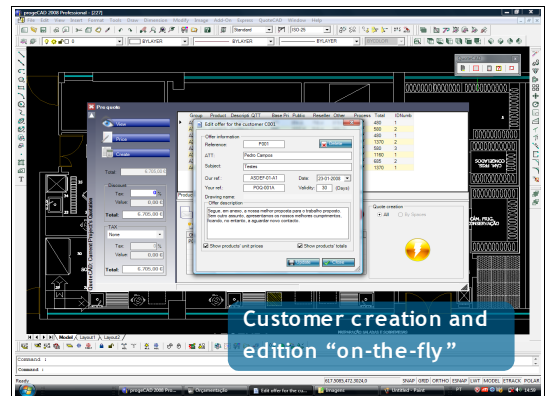

Requirements

- CAD software based on IntelliCAD
- QuoteCAD DB Manager software to create and edit product databases

QuoteCAD 1

Insertion of 2D and 3D blocks	•
Insertion of virtual products	•
Manual search of products by their descriptions	•
Creation of quotation spaces	•
Creation of quotation groups	•
Creation of products assemblies by groups association	•
